RESPONSE TO RESTRICTION REQUIREMENT

Commissioner For Patents  
P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

In response to the restriction requirement in the Office Action of 15 September 2004,  
applicant submits the following response:

**SUMMARY OF THE EXAMINER'S POSITION**

In the above-identified Office Action, claims 1-17 have been placed under a restriction requirement under MPEP 803 and 35 U.S.C. 121.

Specifically, the Examiner has identified the following inventions:

- I. The insert apparatus of Claims 1-13; and
- II. The method of Figures 14-17.

The Examiner has required restriction to one of the identified species for examination.

Applicant respectfully traverses the restriction requirement in the above-identified Office Action, and requests reconsideration and withdrawal thereof. Applicant respectfully suggests that the claims are all drawn to related aspects of a single inventive concept, and should not be subject to restriction.

Even if the Examiner remains convinced that the claims are not all drawn to a single inventive concept, applicant respectfully suggests that all of the pending claims are drawn to closely associated inventions.

Moreover, applicant respectfully points out that MPEP section 803 states that

**"if the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions."**

Applicant respectfully suggests that since the apparatus and method of using are so closely related, the examination of the entire application would not place a serious burden on the Examiner. Applicant therefore respectfully respects reconsideration and withdrawal of the restriction requirement.

Therefore, Applicant requests reconsideration and withdrawal of the Restriction Requirement.

However, notwithstanding the above, and in order to comply with Patent Office requirements, applicant elects, with traverse, the group identified by the Examiner as Invention I.

It is applicant's understanding and belief that Claims 1-13 are drawn to the elected species.
